

Biola University Press Credential Application

Any media interested in receiving press passes for specific events will need to submit an application for credentials. Freelance media will need to submit proof of assignment by simply writing the angle of the story and media they will pitch the article to in the comments section.

ELIGIBILITY

Applications for credentials will be considered from representatives of:

- Daily newspapers as well as wire and news services
- National or international outlets
- National radio and television networks
- Niche trade publications
- Legitimate news Internet sites
- Credible blog/alternative media sites

Please complete the application form below and email or fax by a week prior to the event.

Only one press pass will be issued per organization. If you have questions, email Jenna Loumagne, Assistant Director of Strategic Communications and Media Relations at media.relations@biola.edu. Submission of application does not ensure that credentials will be issued. You will be notified of your acceptance as a media representative within 2 days of submitting your application.
